Special Task Force (STF), Sri Lanka Police
- Indika De Soysa – Senior Consultant, ICTA

4.55 pm – 5.00 pm

Vote of Thanks
Vasana Wickremasena, Group Executive Director, CICRA Holdings

7TH ANNUAL CYBER SECURITY SUMMIT 2019

PREVENT TOMORROW'S THREATS, TODAY!

Preventing cyber threats in a fully digitalized complexed atmosphere appears to be an uphill task. In this challenging environment, mitigating cyber risks in financial services and prevention of data leakage are paramount. So, is the wholistic look at cyber security in the IOT era, especially when multiple social networks compete the sphere.

While preventive measures are utmost important, digital forensic dynamics play a key role in investigating and prosecution of cyber criminals.

Mesmerized with digital technology, many people are deploying IoT devices today at their living and work spaces at a rapid pace; but they often pay scant attention to the security of these systems. Unpatched and unmonitored IoT devices present attackers with opportunities to infiltrate networks.

Meanwhile, the advent of network-based

ransomware crypto worms eliminates the need for the human element in launching ransomware campaigns. And for some adversaries, the prize isn't ransom, but destruction of systems and data.

Self-propagating malware is dangerous and has the potential to take down the Internet, according to Cisco threat researchers.

Adversaries are also becoming more adept at evasion—and weaponizing cloud services and other technology used for legitimate purposes.

Cybercriminals are also adopting attack channels that rely on legitimate Internet services like Google, Dropbox, and GitHub. The practice makes malware traffic almost impossible to identify.

Thus, the seventh annual Cyber Security Summit explores our path towards Preventing Tomorrow's Threat Today.

Speaker Profiles

Dr. Sam Bowne

Founder, InfoSec Decoded, Inc. - Defcon (USA & China) Speaker

Dr. Bowne is the proprietor of Bowne Consulting and an instructor at City College San Francisco, USA. Since 2007, he had been a frequent speaker at Defcon, world's largest annual hacker conference held in Las Vegas, USA, where he has been honoured with Black Badge. He is also a speaker at several other top security conferences such as HOPE, RSA BsideLV and BsideSF. He has been teaching hacking and security classes for more than 10 years all around the world.

Vipin Surelia

Head of Risk for India and South Asia, Visa

Suralia is responsible for championing security in the industry and maintaining the integrity of the payments ecosystem for Visa. This complex and fast evolving ecosystem includes issuing and acquiring clients, merchants, cardholders, and service providers such as processors, device manufacturers, and payment gateways.

Earlier, Vipin was founder Chief Risk and Compliance Officer for Paytm Payments Bank. Vipin was head of Products at National Payments Corporation of India before and has also worked with Reserve Bank of India, IBM and HSBC.

Bhairav Acharya

Public Policy Manager, Facebook

Acharya works on privacy, cyber security, encryption, and emerging technologies at Facebook. Prior to joining Facebook, he was a Program Fellow at New America's Open Technology Institute in Washington DC where he worked on transatlantic encryption regulation. Earlier, he was the Law and Policy Advisor for the Centre for Internet and Society in Bangalore where he led a multi-stakeholder project on future Indian privacy law.

Ashraf Ali

Technical Solutions Architect, Cyber Security, Cisco

Ali specializes in strategic projects involving cyber security solutions such as SOC for Enterprise, Managed Security Service Providers and IT Services Providers. He works with Big-4s and other consulting firms to influence and enable them on Cisco Security solutions. Earlier, he has worked with Tata Communications and Sify Technologies, leading engineering functions for their MSSP, Cloud and ISP engineering functions.

Dr. Nandalal Weerasinghe

Senior Deputy Governor, Central Bank of Sri Lanka

Dr. Weerasinghe is also the Chairman of the Monetary Policy Committee and the Foreign Reserve Management Committee of the Central Bank of Sri Lanka. He currently functions as Senior Deputy Governor supervising the Departments of Economic Research, Statistics, International Operations, Domestic Operations, Macprudential Surveillance, Exchange Control, Currency and Communications. Prior to his appointment, he was the Alternate Executive Director for India, Sri Lanka, Bangladesh and Bhutan.

Dr. Weerasinghe has a Ph.D and Master's Degree in Economics from the Australian National University and a B.Sc. Degree from the University of Kelaniya in Sri Lanka.

Arthur Veinstein

Managing Director, Cellebrite, Israel

Prior to joining Cellebrite, Arthur held several leadership positions at Qognify, NICE Systems (NASDAQ: NICE), Starhome Mach, Comverse (NASDAQ: CMVT) and other international companies. He brings over 20 years of executive leadership experience in Security and Telecom markets in the APAC region.

Tuan Tong

Director, Kela Group, Israel

With a focus on technology evangelising and new market penetration, Tong is an expert in Open Source Intelligence (OSINT) for cyber security since 2010. Earlier, he served in the telecom and IT network infrastructure fields for over a decade.

Udi Shaked

CEO, UDC Pte Ltd

Throughout his career, Shaked has engaged in Homeland Security (HLS) with a focus on high-end cyber solutions and associated technologies. He spearheads the creation of corporate product development, market penetration, and sales strategies.
